

SPECIFICATIONS
ROMED AQUA CAPS
REF: SPC

Cosmetic conform Regulation (EC) No 1223/2009

This is a product intended for professional use.

Romed shampoo caps replace soap and water. Very easy to use in hospitals and home care. After use the cap can be easily disposed.

The shampoo cap is impregnated with a mild creamy shampoo. Heat the cap in a microwave oven for 20 seconds. When the cap is slightly massaged the shampoo becomes active. The cap absorbs impurities like gel, dirt and even blood. After use the hair is almost dry and does not need to be rinsed or dried and can be modelled as usual.

The shampoo caps are not recommended for use on new born babies.

Material: Nonwoven fabric (impregnated)

Weight: 190 g/m²

Liquid: pH neutral, ± pH 7

Ingredient	Function	Percentage
Water	Hydrating	94.25%
